Our College Men

A Roster of Those Who Prepared at the Lycoming County Normal School for Their College Careers

By W. W. Baker

The Lycoming County Normal School from its very beginning has been a producer of college men. "Educational Hall" has been the portal through which hundreds of its students, enthused by its faculty, inspired by the example of its alumni, and sustained by the spirit of self help that is the very atmosphere of this institution, have caught the vision of a broader life to be reached through the college, and taken the decisive step into college life. The educational history of one of these boys or girls of the Normal, reads much like that of all the others; through stress and strife, by hard labor, long hours and over many discouragements, they kept the faith, fought the "good fight," and came forth victors. Each year the number going collegeward and the list of our College Alumni grows. To-day those who prepared at the Lycoming County Normal School can be found in many of our leading colleges and professional schools; and right welcome are they, for as a College President said, "We like to have students come to us from Muncy; they have the spirit of labor."

The Lycoming County Normal School was long since placed upon the accredited list of our Pennsylvania Colleges, and her students are accepted upon certificate of attainments, without examination. Each session of the school finds a small group of "college preps" in attendance and devoting their entire time to the required branches; the fact, that it is in session from April to September, offers exceptional opportunities for further preparation on the part of those about entering college, or for college men who may have conditions to be worked off during vacation days.

An attempt is here made to present the names and colleges of those who prepared at the Lycoming County Normal School, imperfect though the list must necessarily be. It is our earnest wish that the list of our college men may be speedily corrected and completed, and to this end we urge your immediate and hearty co-operation.

LaFayette: Charles S. Riddell, Charles Lose (Bucknell); Emerson Collins, W. C. Gilmore, H. C. Reeder, Herman L. Collins, Christian Eckard, W. F. Brittain, Dr. George Becht, G. B. Milnor, A. F. Stauffer, D. L. Hower, Ira F. Smith, W. L. Williamson, Harry K. Becht, Harris A. Spotts (Bucknell), F. H. Heilman, H. G. Phillips.

Bucknell: W. W. Kelehner, C. E. Sprout, Rev. Charles A. Sears, Fred W. Robbins, Dr. E. M. Heim, (Chicago), Rev. William B. Shedden, Charles D. Koch, George T. Ritter, LaMont Reutz.

Edgar Reed, Daniel Keise, Chester Renn, Arthur A. Smith, J. Harry Shuemaker, Charles E. Belsinger, C. M. Konkle, L. Howard Robbins, G. M. Robbins, W. H. Hunter, W. E. Manaval, L. J. Elmer, A. M. Weaver, S. B. Dunlap, E. F. Gidlett, W. S. Gilmore, Eskine Jarrett, Thomas Lockard, J. Clyde Brown, S. E. Back, W. W. Baker, J. H. Shuck, F. H. Bond, C. A. Williamson, Earl Felt, J. D. Southgall, A. W. Fulton, Earl Teel, Grace C. B. S., T. R. Greeninger, Charles Strohecker, H. H. Miller, Perry A. Goss, George Reiter, R. M. Tyson, Walter Liscumonger, Emma Ziegler, Harold Burtin, Maime Brown, L. E. Rogers, John Rishell, Lawrence Sprunt, H. D. Reese, Alma Ringler, Clyde Chamner, Roy J. Farr, H. B. Bastian, Margaret Love, D. S. Metzger, W. L. Sprunt, J. A. Tyson, W. H. Burtin, Thomas Wood, Susan Meyer.

Gettysburg: Rev. Luther Gross, Rev. Call P. Bastian, Daniel Snyder, C. E.

Synecuse: Lester G. Mcarty, Miss Minnie Taylor.

Harvard: W. L. Sands, A. M. Weaver, Baltimore: D. C. Flannagan, Dr. Z. F. Kumble, Dr. D. E. Kiess, Dr. J. W. Ritter, Dr. George Cummings, Dr. John McLoughlin, Dr. Frank Harper, Dr. S. Elmer, Dr. C. Ritter, J. L. Mansuay, Dr. F. E. Casselberry, C. J. Cummings.

Woman's College: Dr. A. L. Casselberry, Dr. Rose Morgan, Dr. Lizzie Love lace Pickett.

West Point: Capt. Edgar T. Collins. **Valparaiso:** H. K. Willis, Burton Beck, Earl Gold.

Dickinson: W. J. Schnee, Byron Selmg, R. B. Whitmoyer.

Northwestern: Roy Mincemoyer.

CLASS OF 1913

Jarrett, W. J. Dentler, J. S. Bangson, Lloyd Rothfuss, J. H. Back.

Susquehanna: W. K. Bastian, Rev. H. E. Harman.

State: Prof. Emory Myers, Ermin F. Hill, George Guillaume, Raymond Heim, J. V. Shipman, Edna Heberling, Boyd E. Jarrett, Jesse Derick, Ray M. Decker, William Newell, Walter Ritter, Kenneth Wood, Arthur Clapp.

Leligh: Charles M. Dandois, Josepa C. Heilman, M. D. Flicke.

University of Pennsylvania: Dr. W. L. Winner, Dr. J. A. Reeder, Dr. Boyd Baker, Dr. Harry G. Wallson, Dr. H. E. Berger, Fred Heim, Lester Ade, Dr. George W. Crawford.

Jefferson Medical: Dr. M. T. Milnor, Dr. B. M. Yost, Dr. J. Fleming, Dr. E. E. Buckell, Dr. W. Kunkel, Dr. G. Bell, Dr. Joseph W. Corson, Dr. Walter L. Bientholtz, Dr. R. Bruce Tale, Dr. George B. Corson, Dr. R. H. Milnor, Dr. G. Frank Dandois, Dr. R. B. Hayes, Dr. Charles G. Hayes, Wilbur Turner, Creighton Turner, Dr. Jacob Mayer, Dr. R. H. Renn, Dr. Thomas W. Raper, C. G. Renn, Dr. R. J. Bower, Dr. George T. Ritter, Dr. J. W. Van Horn, Dr. Percy Bay, Dr. H. M. Ritter.

Albright: Rev. A. A. Winters, Rev. Clarence Guinter, Harry A. Kiess.

Annata: George Ferrell. **Med. Chi:** Dr. George Dewald, Dr. Eri Farr, Dr. Harold Decker, Dr. R. E. Decker, Dr. Joseph Fullmer, Dr. Kenneth Wood, Dr. H. E. Gray.

Indiana: Dr. Joseph B. Champion.

Nebraska: Dr. A. T. Kaupp.

Hahnemann: Dr. Doyle Webb.

Dental: Dr. C. Watson Williamson, Dr. J. P. Snyder, Dr. J. E. Brownell, S. E. Tate, Dr. M. M. Mansuay.

Michigan: E. G. Salisherry, Thomas Wood.

Veterinarian: Dr. C. R. Good, Dr. C. E. Winner.

Pharmacy: S. E. Tate, W. J. McNamee, Guy L. Jarrett, Kenneth Grange, John Hopkins, W. E. Manaval.

Dr. G. Franklin Bell, a former teacher in the public schools of the county, who attended The Normal, is one of the surgeons of the Williamsport Hospital, and President of the Bank of Newberry, a growing, prosperous institution.

Rev. Call P. Bastian, of the Class of '11, a former Principal of the Normal, who is located at Charlestown, spent his vacation in Lycoming County, and gave his splendid lecture on "My Boy and I" a number of times, before large audiences.

Alumni Banquet

Held at the New Crawford House Following the Commencement Exercises

The annual banquet of the Alumni Association of the Lycoming County Normal School was held at the New Crawford House, immediately following the Commencement Exercises. The Class of '13 attended in a body and was welcomed into membership by the Toastmaster, W. W. Champion. Dr. Roy H. Renn, of Tremont, Pa., responded for the Class of '98; Prof. Emory Myers, of State College, represented the Class of '03; Lloyd E. Rogers, a Junior at Bucknell, spoke for the Class of '08, and Irving Holmes, a member of the graduating class, responded for '13. Short speeches were made by William K. Bastian, Esq., a member of the Lycoming County Bar, of the Class of '91, and others.

The following former graduates represented their respective classes at the banquet: '86, Mrs. Laura Bickel Keller, South Williamsport; '88, Mrs. Eleanor Hyde Sherman, Montoursville; '98, Dr. Roy H. Renn, Tremont, Pa.; Miss D. M. Berriman, Austin, Pa.; Mrs. Florence Murry Dye, Turbottville, Pa.; '99, Howard C. Ferrell, Elmira, N. Y.; '93, Miss Laura Weaver, Muncy; '04, Miss Marion Scott, Montoursville; '06, S. C. Jarrett, Montgomery; '08, E. Lloyd Rogers, Lewisburg; '09, Lester Sedam, Muncy; W. L. Miller, Williamsport; '10, Miss Elsie Bair, Montgomery, Oscar L. Reeder, Montoursville, Miss Ada Packard, Trant Run; '11, Miss Bessie Brownell, Williamsport; '12, Miss Hazel Yeakle, Hughesville, Hanson Meyer, Pennsdale, and Miss Eva L. Keller, South Williamsport.

COMMENCEMENT.

The 30th annual commencement of the Lycoming County Normal School was held at Educational Hall on Friday evening, Aug. 30. The class numbers twenty-nine ambitious young women and ambitious boys. The honors were awarded to Jacob Ernest Metzger and Landis Monroe Greninger, the average of the Class being high. Dr. B. C. Connor, President of Dickinson Seminary, delivered the address to the Class, taking as the subject of his encouraging and scholarly address, Useful Hints for Teachers. Those graduating were:

Pearl Frances Andelt, Eva Marie Bower, Marie Margaret Braine, Emma Alice Bradst, Margaret Flo Case, Cora Curry, Ocie May Drick, Helen Irene Drinkwater, Emma Reitz Leiser, Teresa Marie Logue, Katherine Barbara Metzger, Lora Mae Persun, Glenna Mae Reese, Florence G. Wagner, Marie Elizabeth Weaver, Sarah Louisa Wilkinson, Anne B. Wilson, Flossie Regine Yader. Bruce Emerson Barthlow, Manford Allen Graham, Landis Monroe Greninger, Nevin H. Grieb, Irvin Valentine Holmes, Chester Sherman Langer, Jacob Ernest Metzger, Frank Earl Opp, Samuel Jacob Smith, George Richard Walters, Raymond Grover Waltz.

A CARD INDEX.

Principal S. B. Danlap is making a card index these are modern days in school as out of school of the classes and of those who have been in attendance at the Lycoming County Normal School. From it from time to time he will take your address, sending you a timely reminder of *The Normal* and "School Days," also thereby keeping track of you and your business or profession for the edification and enlightenment of those other boys and girls who have a like interest in "Old Normal Days." But in order to keep it as he would keep it, he must have your hearty co-operation—a line from you when changing your address—or your name, "the ladies, bless 'em," or your occupation. A letter, a card of acknowledgment, or even a request for the catalogue or *The Normal* will delight the heart of our faithful Principal. He will be pleased over your success and pass the word along. A good word for, or a word of appreciation of the things done for you by *The Normal* will never come amiss and be treasured not alone in *The Index*.

OUR FORTY-FOURTH BIRTHDAY.

The Spring of 1914 will be the forty-fourth anniversary of the founding of the Lycoming County Normal School. The man, whose inspiring love for Education planted the seed, who faithfully watered and tilled it through its budding infancy, is still with us, hale and hearty, with hallowed memories of that long ago. He planned so much better than his compeers knew, than, perhaps, even he himself dared dream would come true. Who knows? If his work as a teacher had nothing more to its credit than this founding of the Lycoming County Normal School, with its 44 years of usefulness, multiplied and remultiplied again and again through its hundreds of teaching boys and girls, his would be a crown fit for an immortal; but he impressed his impassioned enthusiasm for Education upon his day and generation, and we, who have come after, are reaping where he sowed a generation since. All honor, then, to Thomas F. Cahan, the founder!

FOR EFFICIENCY.

For upwards of forty years, the Lycoming County Normal School has aimed at efficiency; has trained for more efficient teaching in the rural schools, has taught for efficiency in the

home and the community. It has aimed to render efficient service in an educational way, for the large number of boys and girls coming under its influence, "making plain the way," that leads to the better things in life. Those whom it has taught have, in large measure, demonstrated the efficiency of their training at the Normal, by their work in the school room; while much remains to be accomplished for our elementary schools before they become as efficient as they should be, yet the work performed by the Lycoming County Normal School in training of teachers has been distinctive, along right lines, and progressively forward and upward in its tendencies. It has ever been graced with efficient management, has pursued its course with patience, with persistence, and a measure of success most commendable; but the work is even to day but just begun, it remains to be carried on through the years by you and those who come after. Good as the work has been for those that have come and gone, it must be still more efficient, more worthy of praise for those who will come and go. The Lycoming County Normal School is a legacy of efficiency.

THE RACE.

That "the race is not to the swift, or the battle to the strong," is based upon sound logic and good psychology. Experience, thoughtfulness, judgment, attention to the rules of the game, persistency are all required of him who would win. These traits of character and mentality are not confined alone to the brilliant and the favored few. "The survival of the fittest" holds true at all times and in all things. To rise above unfavorable surroundings, to be victor over environment, is to be strong and of good cheer. Refuse stoutly to be a failure—you will not be one until you yourself acknowledge life a failure; refuse sturdily to be cast down; refuse to be broken on the wheel of things; ever recall the adage, "if at first you don't succeed, try, try again." There is a place for you in the scheme of things, but you must find it, must prepare for it, go to it. The world will take you largely at your own estimate, leastways, it will seldom enhance that value. No; one should not acknowledge defeat while strength of mind and body remain. The plodder unto his "job" wins nine times in ten, as the tortoise won. "Keeping everlastingly at it brings success," is true to-day, will be true of tomorrow. Youth is the time of preparation for life's struggles. Education is the golden key that unlocks the doors through which you must pass to win the battles of life. "Men, lick your flints and up and at 'em!"

"The heights by great men gained and kept,
Where not attained by sudden flight;
But they, while their companions slept,
Were toiling upward in the night."

PLAY GROUNDS.

Play is now fully recognized as a normal part of life, both in childhood and throughout manhood; but play, like all our efforts, should be properly directed—based upon knowledge of why we play and how to play. During the past several years, the playground has assumed a more important place in our social activities. The teacher can no longer sit idly by and let her children do the best they can, without let or guidance during the playhour. She must inform herself of the value, form and proper regulation of playtime; she must set the feet of her pupils upon the way. Properly directed and carried out play leads to efficiency, and efficiency is the slogan of our times in all fields, of work and of play, in education and in religion. Unless you are efficient to a degree, in whatever you may undertake to do, you are handicapped.

OUR COLLEGE MEN.

The Faculty of the Lycoming County Normal School has ever contained men of college training, and men in college who came back to teach during the Spring and Summer terms; for many years, the principal and his assistants have had full college training, men of known teaching ability and proven fitness for the important work in hand. There has always existed at the Lycoming County Normal School a distinctively college-going atmosphere, and hundreds of our boys and girls have been not alone incited to attempt a college course, but helpfully assisted in its attainment. The roster of our college and professional men, which appears in this issue of *The Normal*, is representative of the professional and business life of the communities in which they dwell and the highest eulogy of the inspirational work that has so long prevailed around "Old Educational Hall." Each year find a class of "college preps" at work at *The Normal*, and if you have college inclinations, we believe that you will not go amiss if you take your preparation at Muncy.

NORMAL NOTES

Supt. G. B. Milnor has now to his credit the largest pre-institute visitation of schools in the history of the County Superintendency; and in addition to this timely visiting of so large a number of schools, four local institutes have been held so far this Fall. Keeping his work in shipshape and doing things strictly on schedule time are characteristics of our popular and active Superintendent that have proven very helpful to the schools. Early visiting allows the Superintendent to locate the weak spots in the teaching and to strengthen them betimes. Our schools are in an exceedingly satisfactory condition and making real headway along the lines of the best thought in public education. Supt. Milnor has behind him a loyal, hardworking and enthusiastic corps of teachers.

Prof. Danlap, our efficient principal, suggests that he is always anxious to receive and answer letters from the boys and girls of the public schools, who are about completing the elementary studies. He wants you to feel free to write him at any time concerning your present and future educational opportunities or aspirations. He can and will be of help to all those who consult him.

Supt. Fred W. Robbins, of Lebanon, is one of the most thoughtful of our educational leaders; he has been active for several years past in the affairs of the State Educational Association, and is widely recognized as an authority upon school supervision. His reports are splendid examples of what such reports should be. He has recently prepared and published a teachers' guide for the teaching of Primary Numbers, along advanced psychological lines, that has met with hearty endorsement by schoolmen. Our teachers will have the privilege of hearing Supt. Robbins during institute week. Supt. Robbins is both an alumnus and former principal of the Lycoming County Normal School.

Supt. Charles Lose, of Williamsport, a former student and Principal of *The Normal*, has appeared before a number of County Institutes and other educational meetings throughout Central Pennsylvania during the Summer and Fall. Supt. Lose's talks are always interesting, forceful and full of the meat of the matter discussed. He has been particularly happy this year with a talk upon "Nature Books and Nature."

This will be a good year to attend the Lycoming County Normal School, which has a way all its own for helping boys and girls stand upon their feet and become self-helpful young men and young women. It has a way of arousing ambition, and then of helping along the way towards its fulfillment. If you are a schoolboy or girl of the right sort, they need you, but not nearly so badly as you need them. Why not write to the Principal, Prof. S. B. Danlap, Muncy, Pa., about the matter?

The schools of Lycoming County have long enjoyed an esprit du corps, noticeably absent elsewhere; this spirit of working together—"all for one and one for all," has its inception and is kept alive largely through the fact that nearly all our teachers are the product of the Lycoming County Normal School, and so are acquainted and in full sympathy the one with the other. Knowing fully the leadership of our educational forces, the work is approached in a co-operative spirit that cannot fail to win.

Spring Term begins Monday, March 30th and ends Friday, June 5th.

Summer Term begins Monday June 29th, and ends Friday, August 28th.

Write for catalog.

ANNOUNCEMENT

SESSIONS

Spring term begins Monday, March 30. Spring term ends Friday, June 5.
Summer term begins Monday, June 29. Summer term ends Friday, Aug. 28.

EXPENSES

Boarding. Good boarding and well furnished rooms in pleasant homes may be secured at from \$1.50 to \$4.00 per week; exclusive of Saturdays and Sundays, \$2.00 to \$3.50.

Tuition. The tuition for the Normal sessions is \$10 each. Students attending half the term or less will be charged half tuition. Those attending more than half the term will be charged full tuition.

FACULTY

Sylvester B. Dunlap, Ph. B., Principal
Bucknell University, Psychology and School Management.
William W. Baker, Sc. B., Vice Principal
Bucknell University, Rhetoric and Literature
Frank H. Painter, A. B.
Bucknell University, Natural Science and Modern Languages.
William H. Miller, Ph. B.
Bucknell University, History and Mathematics.
Perry A. Caris, Ph. B.
Bucknell University, Higher Mathematics and Ancient Languages.
George A. Ferrell, B. E.
Juniata College, State College, Reading and Civics.
Miss Jessie Shoemaker
Music and Primary Methods.
Miss Rena Frankeberger
Pratt Institute-Kutztown Normal-Columbia University, Drawing, Craft Work.

LECTURES

SCHOOL MANAGEMENT

G. B. Milnor, A. M., Supt. of Schools, Lycoming County.
Charles Lose, A. M., Supt. of Schools, Williamsport, Pa.

SCHOOL LAW

W. W. Champion, Esq., of the Lycoming County Bar.
Otto G. Kaupp, Esq., of the Lycoming County Bar.
Harris A. Spotts, Esq., of the Lycoming County Bar.

AMERICAN HISTORY

Ephraim M. Henn, Ph. D., Professor Political Science, Bucknell.
Hon. Emerson Collins, of the Lycoming County Bar.

AMERICAN LITERATURE

J. Harry Shoemaker, Instructor State Normal School, Slippery Rock.
W. C. Gilmore, Esq., of the Lycoming County Bar.

NATURE STUDY

L. J. Elmer, Ph. B., Science Dept., Williamsport High School.
A. L. Pepperman, Principal Curtin Building, Williamsport.

HISTORY OF EDUCATION

John H. Harris, Ph. D., LL. D., President Bucknell University.
J. George Becht, Sc. D., Secretary of State Board of Education.

FREE SCHOLARSHIPS

The two free scholarships in tuition, offered by the Alumni Association of the Lycoming County Normal School, were won in 1913, by Iva Drisbler, of Cogan House Township, and Hazel Heim, of Hepburn Township. These Scholarships are good during the current year at The Normal, and are open to every boy and girl in the public schools complying with the conditions as set out in the annual catalog. They are awarded to the two persons, entitled to compete, who make the highest averages in the

annual Common School Diploma examination.

TEACHERS' EXCHANGE

The next meeting of the Teachers' Exchange will be held January 31. The questions to be discussed will be announced later. Dr. C. C. Ellis, of Juniata College, Huntingdon, will again be present and speak to the teachers. Dr. Ellis will also lecture for the Center School Star Course, Loyalsock Township, Jan. 30; Hepburnville Local Institute, Jan. 31, and Eldred Local Institute and Star Course Feb. 14. He still has an open date for Feb. 13.

PERSONALS

'86. Rev. William B. Shelden is an assistant librarian at the Theological Library at Princeton University.

'88. Lizzie Lovelace Pickett is a practicing physician at Arcen, Chester county, Pa.

'91. Edgar T. Collins is Lieutenant Colonel at the Tenth U. S. Infantry, stationed in the Canal Zone.

'94. Another Noddy boy has gone to the far West. Rev. Daniel Snyder is located at Los Angeles, Cal.

'95. James T. Little sends his regards to his friends of the Normal from Youngstown, O., where he is employed by the steel corporation.

'96. Clarence W. Guinter returned in September to British Soudan, the Valley of the Niger, where he is engaged in missionary labors.

'97. Daisy Kellie Schiek has recently removed to West Philadelphia.

'98. George Ferrell has gone "back to the farm." After teaching so many years, we trust surroundings will be more healthful.

1900. Kathryn Holford Harris has emigrated to the South. Her home is now in Nashville, Tenn.

'01. J. D. P. Smithgall is principal of the High School at Franklin, Pa.

'03. Dr. Jacob Moyer is spending a year in medical research work at the Royal Ophthalmic Hospital, London, England.

'04. Roy J. Farr sends greetings from the far West. He is a member of the law firm of Craig and Farr, Los Angeles, Cal.

'05. William Dentler is located at Springfield, O.

'05. The farm has called another man from the college. Boyd Jarrett is doing scientific agriculture near Montgomery.

'05. G. Stanley Metzger has re-entered the ranks of Lyeoming county teachers. He is principal at Montgomery.

'06. Lester G. McCarty is a student at Syracuse university.

'07. J. Verns Shipman is superintending a stock farm at DuBois, Pa.

'08. Doyle Webb entered Medico Chiro in September.

'11. Hiram D. Pauling has gone far to the "Sunny South." He is located in Jacksonville, Fla.

'13. J. Hess Bailey is traveling through the western part of United States and Canada.

Dr. W. E. Delaney, a former student at The Normal, and one who has never lost touch with the school and its work, was elected Coroner of the County at the recent election. The Doctor is now a resident of the city of Williamsport.

TEACHERS' ASSOCIATION

The teachers and patrons of Vallamont and vicinity have extended an invitation for the annual meeting of the Teachers' Association. This section is a live educational center and will give all needed assistance to make the meeting a success. An excellent building has been secured, and only a few minutes

walk from Market Square. A. W. Reeder, Ralph Houseknecht and Glenn Rogers will compose the committee on program and arrangements. Vallamont is easily accessible from all parts of the county, and a large attendance is expected.

Rural Lecture Courses

Lecture and entertainment courses have been arranged in the following districts for this year: Hepburn at Balls Mills; Hepburnville and Pleasant valley; Limestone at Oval; Loyalsock at Center; Eldred at Warrensville. Such talent as Dr. A. B. Van Orner, Rev. W. Gray Roselle, Emerson Collins, Dr. C. C. Ellis and Dr. George P. Bible will appear on these courses. With the proper co-operation courses might easily be arranged in several other sections of the county.

Local Institute Schedule

Nov. 15—Jackson, Fred Marshall.
Nov. 22—Cogan House, John Halderman.
Nov. 28—Washington and Brady, Charles Bailey.
Dec. 6—Brown, McHenry, Cummings and Watson, Jesse Carson.
Jan. 10—Penn, Irvin Holmes.
Jan. 17—Limestone and Bastress, John Bangson.
Jan. 24—Gamble and Cascade, Mary Wilson and Teresa Logue.
Jan. 31—Hepburn, D. B. Lehman.
Feb. 6—Jordan, W. J. Farnsworth.
Feb. 7—Franklin, Ralph Ritter.
Feb. 14—Eldred and Upper Fairfield, Raymond Waltz, M. W. Eutz.
Feb. 20—Woodward and Anthony, John Sheridan, A. C. Paulhamus.
Feb. 21—Lewis, Chester Langer.
Feb. 28—Association, Vallamont, A. W. Reeder, Ralph Houseknecht, Glenn Rogers.

March 7—McIntyre and McNett, W. S. Bender, J. H. Warren.

March 14—Common School Diploma Examination.

March 28—Teachers' Exchange, Diplomas issued.

Dr. Randall Hayes of the Class of '95 is one of the progressive members of the Lyeoming County Medical Society, serving as President during 1903. Dr. Hayes has recently opened a private hospital at Jersey Shore, where he has been in successful practice for a number of years.

Dr. Charles G. Hayes of the Class of '99, who spent eight years in the Government's Medical Service on the Panama Canal, was recently married to Mrs. Alice Bennett Gnetilus, of Montoursville. Dr. and Mrs. Hayes have recently located at Bellevue, a suburb of Pittsburgh, where the Doctor will practice his profession.

examination in physical geography, botany, zoology, geometry, general history, physics, English literature, any four books on Pedagogy. The examination may be divided into three parts, if the applicant so select. Here the student can take up such subjects as she may desire to pursue, devoting her entire time to the work in hand. You can enter after the close of your own school and remain until the examinations are held. Those for this district are held at Williamsport.

Final Examination at the Spring Term

In order that students preparing for provisional certificates may not be compelled to take up so many branches during the Summer term, a final examination will be given at the end of the Spring term in spelling, civics and physiology for those pursuing those branches during the fall term. Those making a grade of 75 per cent. will be permitted to substitute this examination for the regular examination for provisional certificate at the end of the Summer term.

S. B. DENLAP, Principal.

Permanent Certificates

Last year all those in attendance upon the Lyeoming Normal School for the purpose of preparing for the examination for Permanent Certificates were successful. The School Code requires that the applicant hold a Professional Certificate of at least two years standing, and that in addition to the common branches, algebra, music and drawing, that she pass an

Dr. Thomas W. Raper, a one time student at the Lyeoming County Normal School, made a splendid run for the office of County Coroner, on the Washington Party ticket. Dr. Raper is one of Williamsport's successful physicians.

The Lycoming County Normal School from its very beginning has been a producer of college men. "Educational Hall" has been the portal through which hundreds of its students, enthused by its Faculty, inspired by the example of its alumni, and sustained by the spirit of self help that is the very atmosphere of this institution, have caught the vision of a broader life to be reached through the college, and taken the decisive step into college life. The educational history of one of these boys or girls of the Normal, reads much like that of all the others; through stress and strife, by hard labor, long hours and over many discouragements, they kept the Faith, fought the "good fight," and came forth victors. Each year the number going collegeward and the list of our College Alumni grows. To-day those who prepared at the Lycoming County Normal School can be found in many of our leading colleges and professional schools; and right welcome are they, for as a College President said, "We like to have students come to us from Muncie; they have the spirit of labor."

The Lycoming County Normal School was long since placed upon the accredited list of our Pennsylvania Colleges,

NORMAL COURSE OF STUDY

THE work of the Normal course covers three years, of two terms each. Those completing the elementary course of the public schools and passing the examination for common school diplomas will be admitted, without examination, to the Teachers' Preparatory Course; those completing the first year's work of an accredited high school will be admitted to the Junior class; and graduates of first and second class high schools will be admitted to the Senior class, first term, without examination; graduates of a third class high school will only be admitted to the second term, Junior, without examination. High school graduates will be required to review the elementary branches as part of the required work of the Senior year.

First Year—Teachers' Preparatory

EXPLANATION:—The subjects pursued are printed in heavy type. The lighter type indicates the amount of work covered in each.

FIRST TERM

Arithmetic, to Partnership; **Mental**, Halls, to Sec. VII; **Grammar**, Etymology; **Geography**, Outlines, Grand Divisions and the United States, Descriptive; **History**, to Administrations; **Physiology**, Davison, first half; **Writing** Principles, slant; **Spelling**, test-words—fifty lessons; **Theory of Teaching and School Management**; **Elements of Algebra**; **Civil Government**.

SECOND TERM

Arithmetic, completed and reviewed; **Mental**, Halls, completed; **Grammar**, syntax and review; **Geography**, review, political, commercial and physical; **History**, completed and reviewed; **Physiology**, Davison, completed; **Reading**, Standard Classics; **Writing**, slant, free hand; **Spelling**, test-words—fifty lessons; **Theory of Teaching and School Management**, Instruction in Primary Methods; **Elements of Algebra**; **Civil Government**.

Second Year—Junior

FIRST TERM

Algebra, Advanced Book, through fractions; **Rhetoric**, Sentence, Paragraph, Invention, Style; **Physical Geography**, first half; **Literature**, American Authors and their works; **General History**, first half.

SECOND TERM

Algebra, Advanced Book, through equations; **Rhetoric**, Criticism, Original Themes; **Literature**, English Authors and their works; **Geometry**, Book I; **Physical Geography**, complete.

Third Year—Senior

FIRST TERM

Algebra, Advanced to Quadratics; **Geometry**, Books II and III; **Botany**, Introductory work—preparation of 40 specimens; **Physics**, Mechanics, Acoustics; **White Elements of Pedagogy**, first half.

SECOND TERM

Algebra, Advanced, completed; **Geometry**, Complete Plane; **White Elements of Pedagogy**, completed; **Physics**, Heat, Light, Electricity; **Review of Elementary Subjects**.

Electives in Junior and Senior courses—**Latin Beginning**, **Caesar**, **Zoology**, **Vocal Music** and **Drawing**.

College Preparatory

Algebra, through Radicals and Quadratics; **Geometry**, Plane and Solid, entire; **Latin**, Lessons, Grammar; **Caesar**, four books; **Cicero**, seven orations; **Virgil**, Aeneid, six books; **Prose Composition**; **Greek**, Lessons, Grammar; **Xenophon's**

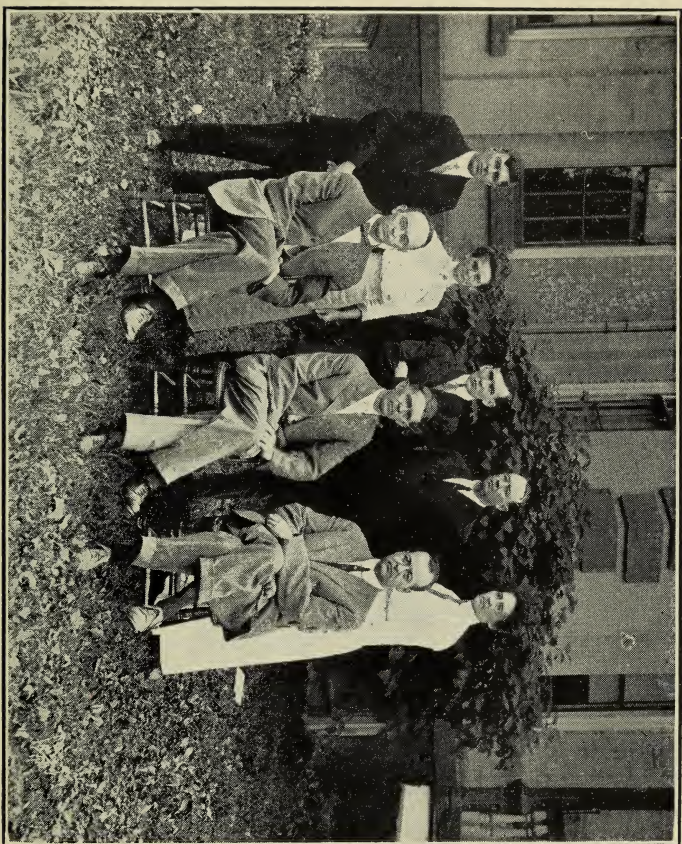

Anabasis, four books; **Homer's Iliad or Odyssey**, three books, **Prose Composition**; **English**, college requirements for 1913; **History**, Outlines of General History, U. S. History; **German**, Grimm's Maerchen; **Rhetoric**, Punctuation, Style, Diction; **Trigonometry**.

This outline contains the studies preparatory to all courses. Students may select the branches necessary to fit them for the course they expect to pursue in college.

Those preparing for a professional or permanent certificate may select subjects from any of the above courses.

The text books used in Theory and School Management meet the code requirements in pedagogy.

The Faculty of 1913

Calendar for 1914

NORMAL COURSE

March 30—Monday Spring Term Begins
 June 5—Friday Spring Term Ends

VACATION OF THREE WEEKS

June 29—Monday.....Summer Term Begins
 August 21—Friday.....Junior Class Exercises
 August 23—Sunday.....Baccalaureate Sermon
 August 24—Monday.....Teachers' Examination Begins
 August 28—Friday.....Normal Graduation Exercises
 Banquet of Normal Alumni and Class Reunions

EXPENSES

TUITION—Spring and summer sessions, each.....\$10.00
 Boarding, per week, \$3.50 to \$4.00; exclusive of
 Saturdays and Sundays, \$3.00 to \$3.50.
 Instrumental Music, private, 20 lessons (extra).. 10.00
 Painting, 50 lessons (extra)..... 10.00
 Diploma and Graduation Fee..... 1.00
 Students attending half the term or less will be charged
 half tuition; those attending more than half the term will be
 charged full tuition.

ESTIMATED TERM EXPENSES

| | | | |
|---|---------|---------|---------|
| Board \$3.00, \$3.50 or \$4.00 per week... | \$30.00 | \$35.00 | \$40.00 |
| Laundry 25c per week..... | 2.50 | 2.50 | 2.50 |
| Books and supplies—depending on course pursued | 2.50 | 3.50 | 4.50 |
| Tuition | 10.00 | 10.00 | 10.00 |
| Incidentals and extras | 5.00 | 5.00 | 5.00 |

Total for term\$50.00 \$56.00 \$62.00

Excluding cost of clothing and travel, one can go through a school term by close economy upon \$50.00 or less. An allowance of \$56.00 is comfortable and \$62.00 is liberal. Many students living near the railroad take advantage of the reduced rates offered them upon the monthly plan, and thus eliminate the cost of boarding away from home.

EXECUTIVE COMMITTEE

Emerson Elwell, Mary Shaw, George Crawford, Ellen Soars, Walter Dugan

CLASS OF 1884—Bowman, Hurbert, business, 3527 S. Ashland St., Chicago
 Clapp, Forrest, Vallamont, Williamsport.
 Fahrenbach, John, Muncy.
 Ritter, Clyde, jeweler, Brighton, N. J.
 Schuyler, Emma, Mrs. Peterman, Muncy.

CLASS OF 1889—Bickel, Cora, secretary, Corporation Secretary
 New York City
 DeWald, Mary, trained nurse, Muncy, Pa.
 Dykins, Guise, Review of Reviews, 14 Irvin Place,
 New York City
 Hill, Charles, Attorney, 510 Third St., Williamsport.
 McDaniel, Mame, Muncy.
 Petrikin, William, Sugar Building, Denver, Col.
 Shaw, Margaret, Mrs. Nicholas, 3020 Dauphin St., Phil'a.
 Sprout, Louis, chemist, Catasaque, Pa.
 Wagner, Anna, bookkeeper, Muncy.

CLASS OF 1894—Fague, Mabel, Mrs. Frank Rogers, Muncy.
 Good, Edith, Pennsdale, Pa.
 Hill, Frances, teacher, Muncy.
 Heiney, Josephine, trained nurse, Muncy.
 Kennedy, Ethelbert, medicine, Wheeling, W. Va.
 Michael, Charles, Philadelphia Ledger, Philadelphia.
 Montgomery, Esther, Boys' Industrial School,
 Morristown, N. J.
 Wood, William, dairyman, Belmead, N. J.
 Wood, Harry, teacher, Atlanta, Ga.

CLASS OF 1899—Clark, Margaret, clerk, Muncy.

Cornelison, Ralph, Muncy.

* Ditzler, Eva

Dreifuss, Rosa

Dykins, Lydia, Mrs. Rickolt, Muncy.

Grange, Kenneth, druggist, Muncy.

Mathews, Alice, Mrs. Newton Walize, Montgomery.

* Painter, William

Shoemaker, Albert

Trump, Clara, Mrs. Ross Ely, 327 King St., Lancaster.

Wood, Thomas, attorney, Muncy.

CLASS OF 1904—Blakeslee, Harvey, 116 Mariner St., Buffalo, N. Y.

Coppes, Reta, Muncy.

Derr, Effie, Mrs. Louis Roby, 115 S. 55th St., Philadelphia.

Dimm, Lulu, Mrs. Stover, Montgomery.

Downing, Edna, music teacher, Muncy.

Farr, Roy, attorney, 816½ W. 11th St., Los Angeles, Cal.

Felsberg, Edna, Montgomery.

* Goodenow, Marian.

Harris, Annadell, Mrs. Howard Worthington, Muncy.

Heberling, Grace, Mrs. Robert McBride, Muncy.

Love, Margaret, teacher, Muncy.

Painter, Charles, Dodge City, Kan.

Poust, Ray, physician, U. S. Army, Ft. Bayard, N. Mexico.

Rauch, Lawrence, H. W. Johns-Manville Co., 100 Wood St.,
Pittsburg, Pa.

Schoch, Sylvia, Mrs. Meck, Muncy.

Snyder, Ethel, stenographer, Muncy.

Stead, Clara, Mrs. William Shuman, Ashland, Pa.

Woodward, Robert, chemist, 610 Bowman St., Williamsport

CLASS OF 1909—Allen, Myra, 218 S. Bennett St., Dorraneaton

Bertch, Pauline, Mrs. H. A. Neece, 1127 Market St.,

Williamsport

Dimm, Frances, stenographer, State College.

Goodenow, Helen, stenographer, Muncy.

Hoffman, Frederick R., Mechanical Engineer, Oakmont, Pa.

Kennedy, Neil, 1004 S. 19th St., Philadelphia.

Kramer, William, jeweler, Steubenville, Ohio.

Lilley, Edna, teacher, Muncy R. D.

Linn, Elizabeth, bookkeeper and stenographer,
4876 Kenmore Ave., Chicago, Ill.

Meck, Rachel S., teacher, Muncy.

Meck, Benjamin, drug clerk, Wagner Drug Co.,
San Antonio, Texas

Rogers, Helen, Muncy.

Soars, Maude R., stenographer, Muncy.

Steck, Mary C., Mrs. Albert Johnson, Lewisburg.

Wedel, Ruth M., Watsontown.

* Deceased.

HIGH SCHOOL COURSE OF STUDY

Freshman Year

FIRST TERM—Civil Government, Reading and Literature, (American Authors), Spelling, Algebra, Latin.

SECOND TERM—Physical Geography, Reading and Literature (American Authors), Spelling, Algebra, Latin.

THIRD TERM—Latin (Lessons), Physical Geography, Reading and Literature (English Authors), Spelling, Algebra.

Sophomore Year

FIRST TERM—Algebra, Rhetoric and Composition, Latin (Lessons), Bookkeeping, English History.

SECOND TERM—Algebra, Rhetoric and Composition, Latin (Caesar), English History, Botany.

THIRD TERM—Algebra, Rhetoric and Composition, Latin (Caesar), Botany, English History.

Junior Year

LITERATURE required—Four subjects to be elected from the remaining five.

FIRST TERM—Literature, Geometry, Latin (Caesar), General History, Physics, German.

SECOND TERM—Literature, Geometry, Latin (Cicero), General History, German (Selected Stories), Physics.

THIRD TERM—Literature, Geometry, Latin (Cicero), General History, German (Grimm), Physics.

Senior Year

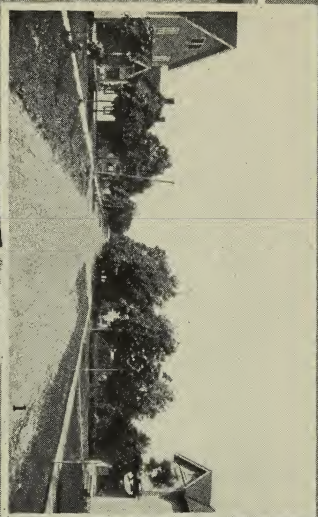

CLASSICS required—Four subjects to be elected from the remaining five.

FIRST TERM—Classics, Geometry (Solid), German, Latin (Virgil), Chemistry, American History.

SECOND TERM—Classics, Geometry (Solid), German, Latin (Virgil), Chemistry, American History.

THIRD TERM—Classics, Geometry (Solid), German, Latin (Virgil), American History.

Weekly paragraphs and essays throughout the course.
Recitations, declamations and orations at stated times.

1—Market Street Looking North from Pepper Street. 2—North Main Street. 3—South Main Street

A BRIEF SKETCH OF

The Lycoming County Normal School

ITS PURPOSE

THE Lycoming County Normal School was founded April 10, 1870. Its establishment was the result of a long felt want for better teachers. To organize, govern and instruct efficiently, a teacher must possess not only a thorough knowledge of the branches to be taught, but also a knowledge of the best methods of imparting instruction in these branches. To equip its students with a liberal education combined with a technical knowledge of teaching has ever been the aim of the school. How well and entirely it has realized this object, the high professional standing of the teachers it has educated, fully attests. Since the foundation of this school the standard of education has been raised many hundred per cent.

A good Normal education may be obtained at home with the least possible expense and at no inconvenience. Before the establishment of this school those who wished to educate their children, and were not able to send them to college or to a State Normal school, were compelled to keep them at home and confine their education to the narrow limits the district school then afforded. But this institution offers many of the advantages of the State Normal schools, with much less expense; and parents may educate their children at home, giving them a thorough course of instruction at a small outlay of money.

Teachers, by being economical, can save out of their winter's wages enough to defray the expenses during both terms of the Normal in the summer. In this way a young man, depending entirely on his exertions for a livelihood, may acquire an education that will fit him for any vocation in life, and a young woman may make herself independent of the help of others.

The teachers who have gone forth from this school have rendered general satisfaction, and have won for themselves and for the school, at which they received their training, a

flattering reputation. Our teachers are in demand and are commanding the best positions and highest salaries paid in the county. Since its beginning the school has been liberally patronized by students, both from this and other counties. During the past year more than three-fourths of the whole number of teachers in Lycoming county were in attendance, and the territory of its patronage is rapidly widening. On its rolls at present are found the names of students from Lycoming, Union, Tioga, Sullivan, Bradford, Clinton, Columbia, Montour, Northumberland and Centre counties, and in each of these the school has teachers filling desirable positions.

Location

The borough of Muncy, in which this institution is located, is a pleasant village with a population of over two thousand, and has five churches—Methodist, Baptist, Episcopal, Presbyterian and Lutheran. The town is situated at the "Great Bend" of the West Branch of the Susquehanna, 12 miles below the city of Williamsport, in the heart of one of the prettiest and most fertile valleys of the state. The people of Muncy have ever been noted for their friendly hospitality, culture and hearty encouragement in all school affairs. The town is accessible by the Pennsylvania, Reading, Williamsport and North Branch, and the Bloomsburg, Berwick and Susquehanna railroads.

The Building

The building was erected in the year 1873 at a cost of thirty thousand dollars. It is centrally located, and commands a magnificent view of the entire valley. The "Susquehanna Water Gap," six miles below, and the "North Mountain," twenty miles in the opposite direction, can be distinctly seen from the upper windows. The building from top to bottom is complete in everything that will make the rooms pleasant and attractive. The Hall, which is used as a study room, occupies the entire third floor of the building. The room is seventy-eight feet long, fifty feet wide, and will comfortably seat five hundred persons. It is lighted by twenty windows, each ten feet high, and has a pleasant breeze passing through it even on the hottest days. The Hall is furnished with single desks and electric lights. Taken throughout, the building is unsurpassed in the state for school purposes.

The Executive Building faces Main street and is adjacent to the public school property. This building, originally built at a cost of over \$40,000, has been equipped for school purposes. The front rooms on the first floor are used for the office of the Board of Education, principal's office, and school library and reading room. The part facing Educational Hall is used for class rooms.

Course of Study

Three courses of study are offered: (1) Teachers' Preparatory; (2) Normal; (3) College Preparatory.

Teachers' Preparatory

Special attention is given to this department, and those who intend to teach, even if well qualified in all the subject matter to be taught, will still find it much to their advantage to spend some time at the Lycoming County Normal School before beginning their work. All those who intend to teach are thoroughly drilled, not only in the subject matter of all the common branches, civil government and algebra, but also in the best manner of presenting the subject matter to their classes. They are also required to take a thorough course in Theory and Practice of Teaching. This class is under the supervision of the County Superintendent, who is careful to make his instructions effective.

Normal

The Normal course has been thoroughly revised. As now arranged the work of four terms will be required to complete it. The work of each term is carefully laid out so that a student who has taught or who has attended a high school may enter the class for which he is prepared. This course has been so planned that a student may teach at least two winters while pursuing it. It supplements the teachers' preparatory course with work that makes broader students and more efficient teachers. Those who pursue this course have no difficulty in securing good positions.

Those graduates of the Normal course who are desirous of pursuing their studies further will be afforded the opportunity of post-graduate work.

College Preparatory

This course offers, without extra charge, superior inducements to students wishing to prepare for any class in college or to make up college work during vacation. A large number of students have been so prepared here for our leading colleges that they have taken high grades in their respective classes and have been particularly noticed for their accurate knowledge in all preparatory work. Greek and Latin are taught according to the most approved methods. German is taught by the conversational method. Special arrangements have been made whereby the certificate of the Lycoming County Normal will be accepted in lieu of examination for admission to Lafayette College, Bucknell University, University of Pennsylvania, Susquehanna University, State College, Lehigh University, and other institutions of learning.

This institution being in session during July and August offers exceptional opportunity for vacational work.

Musical Department

To all teachers some knowledge of music is necessary. In many districts teachers cannot obtain schools without this knowledge, and under the school code it is one of the required subjects for a permanent certificate. In order to give students every opportunity in this direction this department is added. It is under the charge of Miss Jessie Shoemaker. Two classes in the elements of music recite daily without any extra charge to the students. These classes are arranged at such time as will allow all the students who do not understand music to avail themselves of the opportunity to acquaint themselves with the subject. The "Natural Music Reader" is used, giving thorough knowledge of the elements of music, and enabling the student to properly present the subject to the children of the public schools. Miss Edna Downing, a graduate of the University of Michigan, will give private lessons on the piano and organ to those desirous of pursuing such Instructions.

Drawing Department

The course in drawing is planned to give all students who wish to teach a practical knowledge of the subject. The purpose is to train the mind, the eye and the hand to work together—to cultivate habits of thought and observation and to create an appreciation of the beautiful.

Teachers who are unable to conduct such work should take advantage of our course at the Normal. Under the supervision of Miss Frankeberger a splendid beginning has been made and the instruction given has had a telling effect upon the subject as taught in the schools of our county. The work as outlined in the State Course of Study cannot be followed successfully unless the teacher has had special preparation.

Our course is adapted not only to the needs of the prospective teacher, but is also planned to meet the code requirements for professional and permanent certificates.

Mathematics

The course in mathematics includes a thorough mastery of the principles and essentials of Arithmetic, written and mental, Plane Geometry and Algebra, through Quadratic Equations. The aim being to familiarize the student with essentials, to acquire accuracy with rapidity, and to make the application of the underlying principles to the practical problems of life. The division into small classes permits frequent recitations on the part of students, while constant reviews and drills tend to fix the subject matter in mind. Those desirous of pursuing the subject to meet college requirements may do so without additional expense.

History

In American History classes are organized to cover the several periods of our development, giving the student opportunity to begin the work at such point as may best meet his needs. The subject is presented in such manner as to correlate our social, commercial and industrial progress, using a standard text, supplemented by research on the part of the teacher and student. Pennsylvania History will be taught in connection with this subject.

The course in General History is arranged to cover the most important world movements, giving the student a sound basis on which to formulate his reading and research. The school library contains a number of valuable works on history with which the student is urged to become familiar.

English and Literature

English is made a study of greatest importance, no pains being spared to inculcate the discriminating use of the English tongue, and to instill into the mind of the student proper methods of teaching grammar in the public schools. In the grammar classes, as throughout the course, much stress is laid upon the review and the drill, and the text is widely supplemented by research on the part of teacher and pupil.

Rhetoric and Composition receive marked attention and are carefully worked out in recitation and daily practice. English Classics are taken up, the text discussed, the etymologies traced, and synonyms weighed, and the Laws of English Composition applied.

The classes in Advanced English study the works required for college entrance, becoming familiar with the life and principal writings of the author and gaining an insight into the value of his work and the environment in which he lived and labored.

Modern Languages

The course in Modern Languages, (German and French), extends through several terms. The "Reading Method" being largely used. To familiarize the student with the new language, his work is reviewed daily, and translations to and from English are required.

Ancient Languages

LATIN AND GREEK. The course in Latin and Greek is arranged to prepare for the leading colleges. Thorough mastery of the beginners' lessons is required, with practice in Latin and Greek prose writing, rapid and accurate translation. The study of grammar and its application are continued in connection with the Latin and Greek classics. Some attention is given to life of authors read and their place in the literature of their time, also to Roman and Greek history and mythology; and to the style in poetry, oratory and description. For those who wish to devote all their time to Latin and Greek, arrangements may be made whereby they can complete the college preparatory requirements in much shorter time than is usually allotted to this work.

Natural Sciences

The Sciences—Physics, Chemistry and Botany—are taught by use of standard text-books combined with laboratory work on the part of the student. In these courses we aim to set forth the principles and laws governing the world in which we live, move and have our being. By demonstration, by experiment and by observation, the student is led to make the necessary deductions to put himself in rapport with the natural world about him. Each student in Botany is required to present a properly mounted herbarium of forty local specimens of plant life.

Physiology and Hygiene receive careful attention, both as regards to subject matter and the manner of presenting the subject to the pupils in the public schools as required by the school laws.

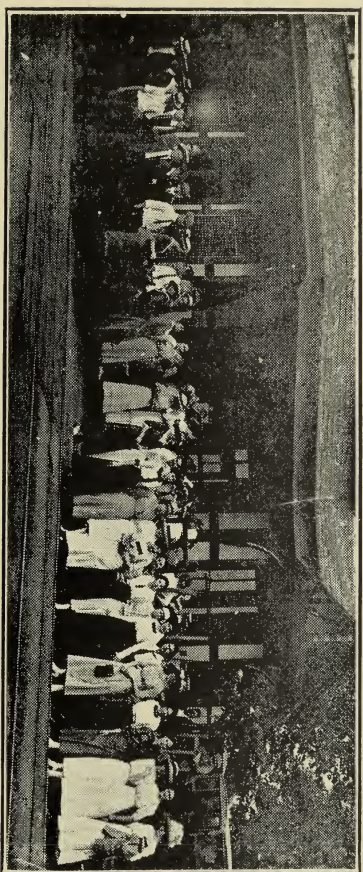

The work in Geography is graphic and deductive, the aim being to show the evident re-action of man upon his environment in the world's progress. The school is well equipped with maps, charts, globes, minerals, cabinets and specimens of natural and manufactured products, as aids in the work.

Elementary Agriculture

The growing demand for the teaching of the Elements of Agriculture in our rural schools will be met by enlarging the scope of the work heretofore done in Nature Study to include an acceptable text on the Elements of Agriculture, supplemented by practical talks from men versed in this field of labor, and the use of the stereopticon.

Pedagogics

The training of teachers has always been one of the important functions of the Lycoming County Normal School and one wherein it has met with no inconsiderable success. The Theory and Art of Teaching are given much attention throughout the course. The student is grounded in the principles of education, instructed in the management and disciplining of the school, and made conversant with approved methods of imparting instruction. The lives of the great teachers are studied, and the modern Educational Classics read and discussed.

Homeward Bound—Students at the P. & R. Station

Since "the best teaching is done when sound and broad scholarship is joined to sympathetic knowledge of mind processes" the aim is to present the elements of psychology so clearly that they may be readily grasped and their application to teaching observed. Due attention is given to the dependence of the mind upon the nervous system; consciousness and attention, and the cultivation of perception, memory, imagination, will and the emotions. The text-books used are those that may be readily comprehended by students beginning the study.

Professional and Permanent Certificates

The Normal makes a feature of preparing its students to meet the new and higher requirements for professional and permanent certificates.

The requirements for professional certificates under the new code are:

1—Not less than two years successful experience in teaching. This includes success in teaching and managing, securing the co-operation and interest of patrons and pupils, attending educational meetings and reading educational literature, holding parent-teachers' meetings and carrying out any activities that will contribute to the success of the school.

2—A thorough examination in the common branches, including civics and algebra. A grade of $1\frac{1}{4}$ is required in all common branches.

3—A thorough examination in any two of the following higher branches: Vocal music, drawing, English literature, plane geometry, general history, physical geography, botany, zoology, physics. To meet the requirements of the code applicants should have at least two terms of Normal school work in the branches which they select. Satisfactory grades from the Normal school will be accepted where applicants have had this amount of work in the higher branches and pedagogy.

4—Two books on Pedagogy. The books to be used this year are White's Elements of Pedagogy, "The Rural School, Its Methods and Management." Two terms are required to complete these books.

For permanent certificates the code requires an examination in all the common and higher branches required for professional certificate and four books on pedagogy. The examination may be taken all at one time or in three successive years as follows: First year, common branches and one book

on pedagogy; second year, vocal music, drawing, physical geography, botany, geometry and one book on pedagogy; third year, zoology, general history, physics, English literature and two approved books on Pedagogy. The books on Pedagogy are to be selected from a list prepared by the State Superintendent. White's "Elements of Pedagogy," published by American Book Company, New York, is one named in the list and will be used in the Normal this year. The examination in this district, composed of Lycoming, Clinton, Tioga and Centre, will be held at Williamsport in August.

Apparatus

In addition to a complete supply of chemicals and apparatus for general chemistry, the equipment includes a Tellurian Globe, Outline Maps, Physiology Charts, a Microscope, a Stereopticon with numerous slides, and a valuable Cabinet of the Philadelphia Commercial Museum, consisting of specimens collected from all parts of the world, of minerals, agricultural products and woods, together with fifty large photographs. This cabinet is found to be invaluable to the student of geography, philosophy, chemistry and nature study. Each article of apparatus is brought into actual use by instructors before the class, so that the recitation is made both interesting and instructive.

The New Laboratory

The newly installed laboratory, thirty by twenty-four feet with five large windows, is particularly well adapted to its purpose. Table space is afforded to twelve students working at the same time, each student having his own equipment of apparatus. There is one hood, a stock of chemicals, and sufficient physical apparatus for individual use. The room is provided with the necessary appliances for practical work in Botany and Zoology. All students prepare their own specimens and receive individual instruction in mounting and examining the botanical and zoological material.

Literary Societies

Each student of the school is urged to become a member of the Literary Society. It is managed by those students who have had experience and so never lags for want of interest.

Many a young man owes his advancement in life to the knowledge and practice acquired in a literary society, and no pains are spared by the Faculty to keep the society in a flourishing condition. The meetings are held on Thursday evening of each week.

Library

The Library is of sufficient size to accommodate every student of the school with good reading matter during such time as he may be able to spare from his studies. The books have been selected with a view of giving the students opportunities for a varied and systematic course in reading, and comprise the standard works in History, Biology, Science, Poetry and Fiction. Many works on teaching have been procured so that teachers may become thoroughly acquainted with the history of the profession. The Library and Reading Room are open evenings when students may consult reference works or draw books to take to their rooms. A student may have the use of the Library at any time by consulting the Librarian. A reading table has been established on which will be found the leading daily and weekly papers, magazines and educational journals. An International Dictionary and a new edition of "The American Encyclopaedia" and the Century Dictionary furnish students with the means of investigating questions which may arise in connection with their studies.

Government

All students boarding in town are under the direct supervision of the Faculty, both in and out of school, and are required to keep such study hours as the Faculty deem advisable. The laws of the school are few and simple, but must be observed both in the letter and spirit. A student, whose presence is deemed injurious to the welfare of his fellow students or to the good management of the school, will not be allowed to remain. Students placed under the particular care of teachers will be carefully looked after.

Athletics

The school ground has recently been equipped with two basketball courts, one for the girls, the other for the boys. Other apparatus will soon be installed.

The public playground, recently purchased, covers more

than five acres of land and is located near the Normal. It is provided with a good base ball field and a number of tennis courts. A running track and appropriate apparatus for all field sports will soon be provided. The Normal is privileged to use this field for all its athletic contests.

Boarding

Good boarding and well furnished rooms may be obtained in pleasant homes in quiet parts of the town at the reasonable rates quoted in the list of expenses. It is particularly noticeable that the influence of these homes is equally conducive to the moral welfare and the mental advancement of the students. Homes are assigned to students, or they may make their own selection with the approval of the Principal.

A partial list of the boarding places is given below: Mrs. Roger Schell, Mrs. Ida Shaffer, Mrs. John Fague, Mrs. Charles Miexell, Mrs. Edith Albright, Mrs. Elmer Confer, Miss Jennie Manville, Mrs. A. L. Shoemaker, Mrs. E. P. Starr, Mrs. A. A. Ranck, Mrs. G. W. Meck, Mrs. James Eaker, Mrs. Charles Montague, Miss Sue Bonine, Mrs. Henry Leach, Mrs. Robert Manville, Mrs. Fred Bryan, Mrs. S. K. Kline, Mrs. Jacob Plankenhorn, Mrs. Calvin Schoch, Mrs. J. D. Hall, Mrs. Murray Zealor, Mrs. James Lore, Mrs. E. P. Hall, Mrs. Frank Berger, Mrs. Colonel Kurtz, Mrs. J. J. Beeber.

Books Used

Teachers' Preparatory—Written Arithmetic, Hamilton; Mental, Hulls; Grammar, Steps in English; Geography, Natural; United States History, Barnes, Revised; Physiology, Davison; Reading, Classics; Writing, Palmer; Spelling, Seventy Lessons, Revised; Algebra, Milne's Elementary; Civil Government, Phillips; Theory of Teaching, "The Rural School—Its Methods and Management," Silver, Burdett and Company, New York.

Junior—Algebra, Milne's High School; Rhetoric, Herrick and Damon; Physical Geography, Dryer; Literature, Howe's Primer of English Literature; General History, Myers; Geometry, Wentworth.

Senior—Algebra, Milne's High School; Geometry, Wentworth; Botany, Andrews; Physics, Wentworth and Hill; Pedagogy, White's Elements of Pedagogy.

College Preparatory—Algebra, Milne's Academic; Solid

Geometery, Wentworth; First Year Latin, Collar and Daniell; Caesar, Gunnison and Harley; Cicero, Harper and Gallup; Virgil, Harper and Miller; General History, Myers; German, Bacon; Trigonometry, Wentworth; Chemistry, Williams' Essentials; English, Standard Classics.

The books to be used in Theory this year are "White's Elements of Pedagogy," American Book Co.; "The Rural School—Its Methods and Management," Silver, Burdett & Co.

Examinations

Examinations are held at the close of each term by the Faculty. Those completing the work of the Teachers' Preparatory Course in a satisfactory manner will be recommended for admission to the examination for Normal students held at the close of the Summer Term by the County Superintendent for the licensing of teachers. No persons are admitted to this examination except they be recommended by the Faculty.

Final Examination at the Spring Term

In order that students preparing for provisional certificates may not be compelled to take up so many branches during the Summer Term, a final examination will be given at the end of the Spring Term in spelling, civics and physiology for those pursuing those branches during the full term. Those making a grade of 75 per cent. will be permitted to substitute this examination for the regular examination for provisional certificate at the end of the Summer Term.

Rules for Graduation

1. All students, without credit for work done in other schools, must have taken the class room work and passed a satisfactory examination in each of the subjects of the Normal course before receiving a diploma.

2. Blank certificates will be furnished to those desiring credit for work done in other schools. These blanks must be filled out by the principals last in charge of such schools and forwarded to this school.

3. No credit will be given for algebra upon the completion of an elementary book alone.

4. Forty mounted specimens in botany must be produced to be exempt in that branch.

5. Graduates of a High School having a three or four years' course may, at the option of the Faculty, substitute a

review of the common branches, for such part of the work of the senior year as the Faculty may determine.

6. All students exempt from a majority of subjects in the Normal course must obtain a teacher's certificate with an average of 2 or better before receiving a Normal diploma.

7. No student will receive a diploma who fails for a teacher's certificate.

8. All graduates from High School must have attended this school at least two terms before graduation.

9. All other rules having been complied with, students, having pursued and completed at the Normal nineteen full courses in the subjects as outlined for the Junior, Senior, and College Preparatory work, shall be eligible for honors. (A course consists of a subject pursued one full term.)

Free Scholarships

The Executive Committee of the Normal Alumni Association offers two free scholarships in tuition, good for the spring and summer terms at the Lycoming County Normal School. The rules and regulations governing these scholarships are as follows:

First. All other rules having been complied with, the two pupils making the highest general average in the examination for Common School Diplomas will be awarded the scholarships.

Second. The committee to examine these papers will be composed of disinterested teachers appointed by the County Superintendent and the President of the Alumni Association.

Third. Any pupil residing in Lycoming County, who shall have been in attendance in the elementary public schools for at least four months of the present winter, and who shall not have attended any higher school, shall be eligible to a scholarship, provided a Common School Diploma has not formerly been issued to such pupil.

Fourth. These scholarships shall be good only during the current year.

This is an opportunity for the boys and girls of the public schools to secure advantages of two terms' instruction free of tuition. It is hoped by this scheme to induce pupils to remain in the public schools for a longer time, and to attend with greater regularity.

The scholarships for 1913 were awarded to Hazel Heim, of Hepburn Township, and Iva Deibler, of Cogan House Township.
